Clarisonic Skincare Brush

From the creators of the Sonicare® toothbrush comes Clarisonic® skin care. Sonic technology first changed the way we clean our teeth, it's now changing how we cleanse our skin. The sonic frequency moves Clarisonic's soft, gentle brush back and forth at more than 300 times per second. The sonic micro-massage clears your pores, loosening dirt, makeup and oil. Clarisonic is proven to remove more dirt (sebum and makeup) than traditional, superficial cleansing, allowing your serums and moisturizers to absorb better. Skin is left soft and pampered without harsh abrasion or chemicals. Clarisonic reduces dry skin patches, oily areas, and blemishes and removes 6 times more makeup. Pore size, fine lines, and wrinkles appear smaller. Clarisonic skincare brush was listed as one of "Oprah's Favorite Things" in 2007. \$195.00

"I recommended the Clarisonic to almost all of my patients. It is great for all skin types and it improves the texture and quality of their skin!"
